

COVID-19 Update

Cherry Creek will remain open only for Bottle Sales/Growler fills during our normal business hours.

At this time, we are taking necessary action to help prevent the spread of COVID-19 per Executive Order 2020-9 issued by Gov. Whitmer. As of Monday, March 16th we will:

- Suspend our café menu and wine/beer/cider tastings for on-premise consumption.
- The tasting room will be limited to no more than 5 members of the public at any given time.
- Members of the public must remain at least 6 feet apart from each other while on premises.
- We will remain staffed in order to answer your questions or take orders via phone, email, Facebook Messenger.
- Currently, we are not able to ship or deliver wine, but we will be offering order pick-up and carryout bottle/case & growler sales.

Our production team will continue to work in the cellar and vineyard to ensure that everything will be business as usual when we are given the OK to welcome back our amazing customers! Until then, we, along with the countless other small businesses this will affect, appreciate your continued support and patronage in any form!

Cheers,

Patrick and the rest of the Cherry Creek Cellars team
